

## New Hampshire (NH) (4 votes)

Capital: **Concord**  
 Area: **9,349sq mi. / 24,214sq km**  
 Population: **1,356,458**  
 Nickname: **"The Granite State"**  
 State motto: **"Live Free or Die"**  
 Governor: **Chris Sununu (R)**  
 U.S. Senators: **Jeanne Shaheen (D),  
 Maggie Hassan (D)**

### How will your state vote?

Predicting a vote is a challenging task. Political researchers have different opinions on how to predict an election outcome. Different formulas and methods are used, however none is perfect. Each prediction is a snapshot of the voters' opinion at a certain point in time. But with election issues and current events changing so fast, it is quite a challenge to have an accurate prediction of how the election will turn out. In the 2016 election, most political pundits and polls before Election Day had Democratic candidate Hillary Clinton in the lead. Yet, while Clinton won the majority of the popular vote, the Republican candidate Donald J. Trump won the Electoral College votes of key swing states and thus the Presidency.

What are the most common predictors to determine how citizens will vote? Socio-economic factors are among the most important ones. They include, but are not limited to, citizens' education, income, and ethnicity. While these are often mentioned as decisive, others are important to consider as well. For example, many Americans cast their vote based on a single issue like health care, women's reproductive rights, the economy, or the environment. These voters choose their preferred candidate based on the issue most important to their identity, their social network, or personal biography, for example religious affiliation, ideology, or health. Americans also often cast their vote in a local context and are influenced by political and social issues affecting their own state. Finally, calculating voter turnout is key to an accurate prediction.

### Some key variables for predicting the election outcome

#### Voting history

*How have people in the state voted in the past? Is the state solidly red, blue, or purple? What is the expected turnout?*

#### Ethnicity

*What ethnic group does a citizen belong to? What is the ethnic make-up of the state?*

#### Religion

*How important is religion to the citizens? How often do they pray or attend worship service?*

#### Economy

*What's the current economic situation in the state? How many citizens live in poverty? How many are without a job?*

#### Income inequality

*How wide is the gap between wealthy and poor people? How much income does the top 1% in the state take home?*

#### Education

*How many people graduate from high school in your state? How many have a college degree?*

## Voting history <sup>[2]</sup>

Nicknamed the Granite State for its many quarries, the famous Old Man of the Mountain rock formation is still considered the state symbol, despite having collapsed in 2003.

New Hampshire, one of the original 13 colonies, entered the Union in June 1788, and has participated in all 58 presidential elections through 2016. Although surrounded by "blue" states, the independent nature of New Hampshire voters leads it to be considered a battleground state in most election cycles. It has, however, ultimately voted Democratic in six of the last seven elections. In 2016, Hillary Clinton won by 0.4% over Donald Trump, the 2nd closest state (after Michigan) in percentage terms that year. New Hampshire has maintained its allocation of four electoral votes since 1884.

## Election results in New Hampshire (2000–2016): <sup>[3]</sup>

## Voter turnout 2016:

## Ethnicity <sup>[4]</sup>
