Mchango wa Mazingira Asili kwa Watu
Nature's Contributions to People

Faida dhibiti/Regulating

A	Uundaji na matengenezo ya makazi Habitat creation and maintenance	
B	Uchavushaji Pollination	C	Utawanyishaji wa mbegu Dispersal of seeds	
D	Udhibiti wa ubora wa hewa Regulation of air quality	E	Udhibiti wa tabia nchi/hali ya hew Regulation of climate	
F	Udhibiti wa wingi wa maji safi Regulation of freshwater quantity	
G	Udhibiti wa ubora wa maji safi Regulation of freshwater quality	
H	Udhibiti wa rutuba ya udongo na kulinda udongo Regulation of soil fertility and protection of soils	
I	Udhibiti wa matukio makubwa ya hatari Regulation of hazards and extreme events	
J	Udhibiti wa viumbe waharibifu Regulation of detrimental species	

Faida zinazoonekana/Material

K	Nishati Energy	
L	Chakula Food	
M	Malisho Feed	
N	Malighafi za ujenzi Materials for building and construction	
O	Malighafi kwa matumizi ya nyumbani Materials for domestic use	P	Dawa Medicine	
Faida za vizazi/ Intergenerational benefits

Q	Kujifunza Learning	
R	Kufurahia mandhari Aesthetic enjoyment	 S	Kuburudika/michezo Recreation	
T	Faida za matibabu ya kuondoa msongo wa mawazo kutoka kwenye mazingira asili Therapeutic and restorative benefits from/in nature	
U	Ushirikiano na mshikamano katika jamii katika mazingira asili Social cohesion and bonding in nature	
V	Urithi wa kitamaduni na utambulisho kupitia mazingira asi Cultural heritage and identity through nature	
W	Muingiliano wa binadamu na mazingira asili Connectedness with nature	X	Uzoefu mpya na wa kipekee New and unique experiences	Y	Faida za vizazi Intergenerational benefits	

Mchango wa Mazingira Asili kwa Binadamu uliandaliwa kwa kufuata matokeo ya mahojiano.
NCP were identified through interviews. Bar plots show results from the survey.
