Vorwort

Das Projekt Interact for School (I4S; April 2020 – Dezember 2023) ist eine interdisziplinäre Forschungskooperation zwischen der Leuphana Universität Lüneburg, der Universität Tübingen, und der Technischen Universität Dortmund.

Ziel des Projekts war die Implementierung des *FeedBook*, eines intelligenten plattformbasierten Tutorensystems, das digitale Englisch als Fremdsprachen (EFL)-Übungen und scaffolded Echtzeit-Feedback zur Grammatik bereitstellt und vollständig in den Unterricht und den Lehrplan der Klasse 7 integriert ist (Meurers et al., 2019; Parrisius et al., 2021; Pili-Moss et al., 2022).

Die digitalen Übungen konzentrieren sich auf eine Auswahl englischer Grammatikstrukturen, die kommunikative Funktionen unterstützen und zur Vorbereitung auf unterrichtsbezogene Zielaufgaben (Target-Tasks) dienen.

Vier Sets von Unterrichtsmaterialien, die jeweils eine kommunikative Zielaufgabe enthalten, wurden zusammen mit den entsprechenden vier digitalen Übungsphasen (Zyklen) entwickelt. Die vorliegenden Klassenmaterialien beziehen sich auf Zyklus 2, der einen grammatikalischen Schwerpunkt auf Konditionalsätzen und einen thematischen Schwerpunkt auf , Intercultural Comparisons/School Life ' hatte. Die digitalen Übungen zu Zyklus 2 sind nicht in dieser Sammlung enthalten; ihre Veröffentlichung ist in Vorbereitung.

Wir hoffen, dass diese Klassenmaterialien sowohl für EFL-Lehrkräfte als auch für EFL- und Zweitspracherwerbsforscher*innen hilfreich sein können. Eine aktuelle Liste aller im Rahmen des I4S-Projekts erstellten Forschungspublikationen finden Sie unter: <https://interact4school.de/veroeffentlichungen/>.

1. Lehrkrafthandreichung Task Cycle 2: Intercultural comparisons/School life

Am Ende der Unterrichtseinheit sollen die Schüler*innen in der Lage sein, die folgende Target Task erfolgreich zu bearbeiten:

Work in small groups: Set up rules for the perfect boarding school.

Diese Kompetenzen werden zur erfolgreichen Bewältigung der Target Task benötigt:

a. Words and Phrases (Wortschatzerweiterung):

- i. **Expressing opinion**
- ii. **School words/phrases**

b. Grammar:

- i. **If-sentences**
- ii. **Conditional (Type II)**
- iii. **Modals: *could, should, would.***

In den nachfolgenden Stundenentwürfen wird eine Unterrichtseinheit von 8 Unterrichtsstunden skizziert, in denen die benötigten Kernkompetenzen erworben bzw. vertieft werden. Ihr Aufbau ist an einen klassischen Unterrichtsentwurf angelehnt. Die Unterrichtssequenzen sind entlang des Lehrbuches *Camden Town 3* konzipiert, um den Einsatz im regulären Englischunterricht zu gewährleisten. Damit der Aufwand für die Unterrichtsgestaltung möglichst gering ausfällt, sind alle in den Stundenentwürfen aufgeführten (digitalen) Materialien verfügbar, d.h. sie können direkt im Unterricht eingesetzt werden.

Zeitlich sollte es möglich sein, die Aktivitäten im Englischunterricht mit 3-4 Wochenstunden à 45 Minuten durchzuführen. Die Stundenentwürfe werden im Folgenden genauer erläutert.

Stundenentwürfe und digitale Übungen:

Die Unterrichtsstunden in den Stundenentwürfen sind als Doppelstunden à 90 Minuten konzipiert, können jedoch auch als Einzelstunden à 45 Minuten unterrichtet werden.

Jeder Doppelstunde sind die passenden digitalen Übungen im FeedBook zugeordnet, die die Schüler*innen parallel zum Unterricht an einem Computer oder Tablet in Einzelarbeit bearbeiten. Die Bearbeitung erfolgt entweder in designierten Lernzeiten außerhalb des Englischunterrichts (beispielsweise im

Lernbüro, etc.) oder als Hausaufgabe.

Medium/Material:

In dieser Spalte werden alle benötigten Medien/Materialien aufgeführt.

Für jede Doppelstunde gibt es eine PowerPoint-Präsentation, in der digitale Tafelbilder mit sprachlichen Hilfestellungen, Arbeitsanweisungen, etc. zu finden sind. Wenn technisch möglich, können diese anstelle von klassischen Tafelbildern verwendet werden. Die Präsentationen sind als PDF verfügbar. Die Titel der Präsentationen weisen jeweils auf die passenden Unterrichtsstunden hin. In den Stundenentwürfen wird auf die konkreten Folien der passenden Präsentation verwiesen.

Arbeitsmaterialien wie Arbeitsblätter, Kärtchen, etc. sind als PDF-Dateien vorhanden. Die Dateinamen sind chronologisch sortiert und die Kennzeichnung überall identisch. Wie bei allen Materialien weist der Anfang des Namens, beispielsweise *T2*, auf den konkreten Task Cycle hin (hier: Task Cycle 2)

Explain that this is a nonsense word and that instead of 'coffeepot' they could use any meaningless word e.g. <i>blap</i>. If they keep guessing verbs instead of asking questions, make them ask a question before each guess. Be careful with the question <i>How?</i> If the player asks, <i>How do you coffeepot?</i>, the volunteer may demonstrate by moving her/his arms and this will make it too easy. If you include <i>How</i>, ask for a purely verbal response, e.g. <i>With my arms</i>. The player who guesses the verb is the winner and replaces the volunteer.</p> |

More dialogues

A: It shouldn't snow on Christmas.

A1: Are you crazy? Don't you know that snow is the most important part of Christmas? A2: I'm afraid I really can't agree with you. In my opinion, snow is what makes Christmas special.

B: TV series are bad for your mental health.

B1: No way! It's clear that it depends on the shows you watch.

B2: I think I see your point, but I believe that depends on the shows you watch.

C: School holidays should be shorter.

C1: I'm not so sure about that. Personally, I think that long school holidays are necessary to take a break from everything.

C2: Absolutely not. Why would you say that? School holidays should be longer.

D: Children should not be allowed to use the internet until they reach a certain age.

D1: I totally disagree! Everyone should be allowed to use the internet.

D2: Not necessarily... From my point of view, there are helpful and healthy ways for children to use the internet.

E: Electric scooters should be banned because they are dangerous.

E1: I'm not sure I go along with that view. In my eyes, electric scooters are safe as long as you know how to use them correctly.

E2: You've got to be kidding, electric scooters are very safe!

F: There should be less parks. People don't need them because they spend all their time indoors at their computers and smartphones.

F1: We don't seem to agree here... I feel there should be more parks to motivate people to get outside.

F2: There is no way I could agree with that. People need more parks to get outside.

G: Education prepares young people for the future.

G1: Well, I see things rather differently. My impression is that our education system doesn't prepare young people enough.

G2: No, not really. We all know that our education system doesn't work very well.

H: Cyberbullying should not be addressed by the government. It is the responsibility of the websites where it happens.

H1: You're wrong, it should be addressed by the government. Websites don't do anything.

H2: That's one way of looking at it, however, I think the government should address it. It is an important issue and websites don't do enough to protect people.

I: E-books should replace paper books.

I1: I still have my doubts about that... Maybe paper books don't need to be replaced and both can exist.

I2: You haven't done your research. Paper books shouldn't be replaced.

J: Watching YouTube is more beneficial than reading a book.

J1: You could say that, however, I believe it really depends on the quality of content.

J2: Who told you that? It goes without saying that it all depends on the quality of content.

K: Video games are too violent.

K1: I think you don't know many video games. There are so many games without fighting and violence in which you can create stories or solve riddles!

K2: I agree up to a point; there are lots of violent video games. On the other hand, there are many games without any violence in which you create stories or solve riddles.

L: History is not an important subject in school.

L1: I find that very difficult to accept. In my opinion, history is one of the most important subjects in school.

L2: I don't agree with this at all. Everyone knows that history is one of the most important subjects in school.

M: Every family should have a pet.

M1: I don't really agree with that idea. I'd like to point out that owning a pet is a lot of responsibility and you need the time, money and energy to care for it.

M2: That's a terrible idea. Owning a pet is a big responsibility and if you don't have the time, money and energy to care for it, you shouldn't have one.

N: Math is better than geography.

N1: That's simply not true. Math and geography are both great subjects.

N2: We don't seem to be in complete agreement about this. Personally, I like both subjects, but everyone has a different opinion.

O: All pupils should wear school uniforms.

O1: No, pupils should not be forced to wear school uniforms and there are many arguments for not wearing them. Have you ever heard of expressing your personality?

O2: I think I see where you're coming from, but there are good arguments for not wearing school uniforms. For example, it's important for many people to express their personality through their clothes.

Target Task:

Imagine you could set up the perfect boarding school!

a) Think of a good name for your perfect boarding school:

b) Where would it be located?

c) Write down 5 (or more) RULES for your perfect boarding school:

e.g. *Our school would have single bedrooms for all students.*

1. _____

2. _____

3. _____

4. _____

5. _____

d) Write down what advantages students would have if these rules really existed.

|  | Advantages |
|-------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|
| Example | <i>If our school had single bedrooms, every student could have some privacy.</i> |
| Rule 1 | |
| Rule 2 | |
| Rule 3 | |
| Rule 4 | |
| Rule 5 | |

e) Meet up with a second pair.

Present your ideas for a perfect boarding school to the other team.

Listen to their ideas!

f) Together with your partner, look at the other team's rules.

Write down possible disadvantages students could have if the rules of the other team were introduced.

|  | Disadvantages |
|-----------------------------------------------------------------------------------|----------------------------------------------------------------------------------------|
| Example | <i>If your school had single bedrooms, the students wouldn't become close friends.</i> |
| Rule 1 | |
| Rule 2 | |
| Rule 3 | |
| Rule 4 | |
| Rule 5 | |

g) Then give some critical feedback on how you think the schools would work in reality.

You can start like this:

Team 1: In our boarding school there would be single bedrooms for all students.

Team 2: That's a nice idea. But if the school had single bedrooms for all students, the students maybe wouldn't become close friends quickly. They would probably spend a lot of time alone.

Team 1: In our boarding school ...

h) Now the other team can give you some critical feedback.

Do the same as in g).

i) Be prepared to present the rules and/or the critical feedback in front of your class without using your notes!
